End Application:

An/apg-15 (v) 5, f-5 e and f

General Description:

Consists of microwave integrated circuit assembly, waveguide ext., circulator, electronic control module assembly, oscillator voltage control, transmit/receive limiter and misc electronic/hardware parts; 11.1 in. W, 5.4 in. H, 10.5 in. Long; upper section of lru and provides mounting surface for receiver circuit if modules a1/a2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
