**End Application:**

Programmable signal processor f-16 c/d

**Criticality Code Justification:**

Feat

**Component Type And Quantity:**

1 chassis

**Product Name:**

Chassis assembly programmable signal processor

**Special Features:**

Esd sensitive; this item is a chassis assembly w/ various hardware installed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A51110
