End Application:

Programmable signal processor f-16 c/d

Criticality Code Justification:

Feat

Component Type And Quantity:

1 chassis

Product Name:

Chassis assembly programmable signal processor

Special Features:

Esd sensitive; this item is a chassis assembly w/ various hardware installed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
