Overall Length:

15.000 inches

Overall Height:

21.250 inches

Overall Width:

10.550 inches

End Application:

An/alq-212

Functional Description:

The transmitter, laser generates simultaneously modulated infrared (ir) output in ir bands i and iv using power and timing signals supplied by the receiver, countermeasures. It interfaces to the receiver, countermeasures using bi-directional asynchronous communications for command and status monitoring. It performs autonomous continuous built-in-test (bit). It is air cooled.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23900
