Storage Temperature Range:

-54.0/+95.0 degrees celsius

End Application:

F-16a/b aircraft

General Description:

Item consist of printed circuit board length 3.0in., width 2.0in., thickness 0.062in., interface connectors, core plane, diode arrays, standoffs and cover plate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
