Overall Length:

3.607 inches

Overall Height:

0.349 inches

Overall Width:

3.503 inches

End Application:

Radar set subassembly

Component Type And Quantity:

1 printed wiring board

Special Features:

Connector, ejector, code pin, capacitor, resistor, integrated circuit; mounting method: connector and rack; component quantity: 32

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
