Overall Length:

8.250 inches

Overall Height:

0.812 inches

Overall Width:

2.750 inches

Vibration Resistance Range In Hertz:

+5.0/+25.0

Operating Temperature Range:

-20.0/+65.0 degrees celsius

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Mechanical

Circuit Construction Type:

Any acceptable

Average Power Rating Per Channel:

100.0 watts output

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
