**General Description:**

Nfrequency response m3 db bandwidth from 300 hz to 3 mhz, input level 5.6 v peak to peak max, max output level 5.7 v peak to peak, output impedance 100 ohms, delayed output 47 ohms, 14.470 in. H, 4.844 in. Lg, 2.000 in. W

**Fsc Application Data:**

Radio frequency radar, except fire control and guided missile

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
