Overall Length:

7.062 inches

Overall Height:

0.375 inches

Overall Width:

5.437 inches

End Application:

Radar set subassembly

Component Type And Quantity:

1 printed wiring board and 1 connector and 2 fastener and 2 capacitor

Special Features:

Jack, test 18; integrated circuit 30; component quantity: 54; fsc application data: radar set, fire control, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A51110
