General Description:

Item processes continuous wave (cw) radio frequency (rf) signals in accordance with command data to generate simulated targets, electronic countermeasures signals, and clutter signals at the outputs for use in radar set an/spg-51d; frequency range 5.45 ghz to 5.825 ghz; o/a dims 28.0 in. Lg, 7.50 in. W, 8.0 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
