General Description:

Item consists of frame holding 12.4 in, Lg by 7.1 in, W circuit card assembly: cca contains 52 capacitors, 22 coils, 9 connectors, 9 diodes, 7

tion condition in the modern of the many first the transfer of the modern of the moder
microcircuits, 1 printed wiring board, 15 resistors, 3 switches, and 10 transistors
Shelf Life:
N/a
Unit Of Measure:

Demilitarization:

Yes - demil/mli
