Cartridge Model Number:

M768

Fuze Type:

Point detonating

Fuze Model Number:

M783

Dod Ammunition Code:

1310-ba17

Dot Identification Number:

Un0321

Net Explosive Weight:

0.882786 transportation pounds

Special Features:

He 60mm mortar, comp b, with pd/dly fuze: m768; packed in fiber container, intermediate metal container, outer wirebound box

Hazardous Material Classification Code:

1.2 department of defense hazard class division and e storage compatibility group

Quantity Per Shipping Container:

16

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T007-e
