Unit Package Type:

Pallet, wood

Supplementary Charge:

Included

Model Number:

M795

Design Type:

High explosive

Dod Ammunition Code:

1320-da54

Dot Identification Number:

Un0168

Net Explosive Weight:

24.640 storage pounds and 24.640 transportation pounds

Special Features:

Projectile 155mm, he, m795 loaded w/imx-101 and w/pbxn-9 supplementary charge

Dot Hazard Class/division:

1.2.1d

Hazardous Material Classification Code:

1.2 department of defense hazard class division and d storage compatibility group

Dot Proper Shipping Name:

Projectiles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A35400
