Overall Length:

90.290 inches

Overall Height:

14.400 inches

Overall Width:

14.750 inches

Current Type:

Dc

Unit Package Quantity (non-core):

1

Content Ejection Method:

Cartridge

Component Name And Quantity:

40 bomb

Component Model Number:

Blu-4 (t-1) /b

Load Suspension Point Quantity:

2

Distance Between Load Suspension Points:

14.000 inches

Dispenser Model Number:

Suu-13a/a

Dod Ammunition Code:

1325-e235

Dot Registration Code:

Ex1988100677

Voltage In Volts:

28.0

Gross Weight:

1582.0 shipping container pounds

Hazardous Material Classification Code:

1.4 department of defense hazard class division

Unit Package Type:

Container, metal

Quantity Per Shipping Container:

1

Supplementary Features:

Model cbu-3 (t-2) a

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T158-g
