End Application:

Part of wgu-121b guidance, control section; used with gbu-22/b and gbu-24/b laser guided bomb

Product Name:

Seeker group, guidance-control section

Dod Ammunition Code:

1325-dy43

General Description:

9input power characteristics: power for gimbal control provided by guidance electronics section; output and operating characteristics: seeker platform senses laser light. Signal processor rejects invalid signals for use by guidance electronics section

Type/model Designation:

Dsu-32/b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
