End Application:

This item is used on the blu-109, blu-28 and blu-113

Fuze Model Number:

Fmu-143s/b

Installation Design:

Nose

Product Name:

Fuze system, bomb, fmu-143s/b

Dod Ammunition Code:

1325-ed29

Dot Identification Number:

Un0409

Dot Registration Code:

Ex2011031901

Net Explosive Weight:

0.3110 storage pounds and 0.3110 transportation pounds

Special Features:

This item contains pbxn-11 booster pellets; contains a 12 and 21 second arm delay and a 60 millisecond impact delay

Hazardous Material Classification Code:

1.2 department of defense hazard class division and d storage compatibility group

Dot Proper Shipping Name:

Fuzes, detonating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T210-c
