End Application:

Blu-109, blu-113 and gbu-28

Fuze Model Number:

Fmu-143t/b

Installation Design:

Nose

Product Name:

Fuze system, bomb, fmu-143t/b

Dod Ammunition Code:

1325-ed28

Dot Identification Number:

Un0409

Dot Registration Code:

Ex2011031902

Net Explosive Weight:

0.311 storage pounds and 0.311 transportation pounds

Special Features:

This item contains pbxn-11 booster pellets; contains a 12 and 21 second arm delay and 120 millisecond impact delay

Hazardous Material Classification Code:

1.2.2 department of defense hazard class division and d storage compatibility group

Dot Proper Shipping Name:

Fuzes, detonating with protective features

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T210-c
