Size Designation:

318 millimeter

Specific Usage Design:

Mgr-3a guided missile

Model Number:

M26

Motor Propellant Grain Weight:

242.0 pounds

Igniter:

Included

Criticality Code Justification:

Exwt

Dod Ammunition Code:

1340-j480

Dot Registration Code:

Ex1988060960

Net Explosive Weight:

247.00000 storage pounds and 247.00000 transportation pounds

Dot Hazard Class/division:

1.1

Hazardous Material Classification Code:

1.1 department of defense hazard class division

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T357-b
