Accessory Components And Quantity:

Range and depth presetter printed wiring board 2074450 1 cage 10001; semiconductor device twin npn transistor 5529256 3 cage 53711; intergrated circuit 2500722 7 cage 10001; intergrated circuit 2500727 4 cage 10001; intergrated circuit 2500223 1 cage 10001; intergrated circuit 2064868 4 cage 10001; intergrated circuit 2500747 2 cage 10001; intergrated circuit 2500724 1 cage 10001; semiconductor 2508852-2 6 cage 10001

Product Name:

Range and depth presetter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
