Diameter:

0.225 inches

Length:

72.000 inches

Exterior Covering Material:

Plastic

Filler Material:

Petn

Dod Ammunition Code:

1375-m456

Dot Identification Number:

Un0065

Dot Registration Code:

Ex2009110155

Special Features:

For use in canine explosive scent kit

Hazardous Material Classification Code:

1.1 department of defense hazard class division and d storage compatibility group

Dot Proper Shipping Name:

Cord, detonating

Supplementary Features:

Additional hazardous material classification codes: coast guard class: ix-b; department of transportation class: i; firefighting group: v

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T165-c
