Dod Ammunition Code:

1375-dwbj

Special Features:

Threaded connector

Gross Weight:

8.7 shipping container pounds

Quantity Per Shipping Container:

1000

General Description:

The mk 173 adapter consists of an olive drab or black plastic, cylindrical shaped device approximately .60 inch long and .75 inch diameter. This inert adapter is internally threaded at one end to facilitate threading onto the m60/t2 fuse igniter (with primer assembly removed); the other end is internally threaded to receive the pyrotechnic lead initiators.

Shelf Life:

N/a

Unit Of Measure:

--
