/iew Online at https://aerobasegroup.com/nsn/1377-01-116-7688
Oot Identification Number:
Jn0323
Oot Registration Code:
x1987100798
lazardous Material Classification Code:
.4 department of defense hazard class division
Oot Proper Shipping Name:
Cartridges, power device
General Description:
2.44in lg; 0.75in h; 0.75in w; 0.09lb wt; electrically initiated c/o steel body with threads two steel contact pins bridge eire and an output cup
Used to release fire exting fluid into the area surrounding the engines in the event of fire in that area. Thread size on cartridge body9/16x18
njf-3a.Connector end mates withms27467t9b98sd.Dod code 1377-mf74.
Reference Number Differentiating Characteristics:
hread size on cartridge body 9/16 x 18 unjf-3a.Connector end mates with ms-27467t9b98sd
Shelf Life:
I/a
Unit Of Measure:
-
Demilitarization:
'es - demil/mli
iig:
N23900
