**Diameter:**

0.560 inches

**Length:**

9.010 inches

**Environmental Protection:**

Waterproof

**Exterior Covering Material:**

Steel

**End Application:**

Canopy fracturing system on the tav-8b aircraft

**Filler Material:**

Hexanitrostilbene, hns type 1, grade a

**Cross-sectional Shape:**

Circular

**Dod Ammunition Code:**

1377-su34

**Dot Registration Code:**

Ex1987090188

**Hazardous Material Classification Code:**

1.4 department of defense hazard class division

**Reference Number Differentiating Characteristics:**

As differentiated by unit package type

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T165-c
