Overall Length:

3.740 inches

End Application:

B-2 aircraft

Detonation Initiation Method:

Manual

Cartridge:

Not included

Criticality Code Justification:

Feat

Product Name:

Initiator, manually actuated

Dod Ammunition Code:

1377-sr74

Special Features:

Critical for fit tolerances and testing requirements

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T190-j
