End Application:

1385-01-456-9129

Special Features:

The small caliber dearmer adapter kit consists of a mounting adapter to interface the small caliber dearmer with the rons. The mounting adapter will positively secure two small caliber dearmer to the rons without modifying the dearmer or the rons. The mounting adapter is designed with channels on both sides allowing the fingers on the wrist pitch gripper to maintain positive control of the adapter once the gripper closes
