Special Features:

H.D. Urethane case; solid state circuitry; silicon controlled rectifier firing control circuit; 220-225 vdc firing voltage; 4.0 joule firing energy; 9v alkaline cell battery power source; inverter, solid state electronic h.V. Source; capacitor, special electrolytic, h.D., 50-2 ohm straight series electric blasting caps; 2 series of 25-2 ohm series parallel electric blasting caps; 135 ohms; waterproof

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
