**Criticality Code Justification:**

Feat

**Product Name:**

Miniture air launched decoy (mald)

**Dod Ammunition Code:**

1410-wh57

**Dot Registration Code:**

Ex2010040647

**Net Explosive Weight:**

0.71770 storage pounds and 0.71770 transportation pounds

**Special Features:**

End item will have unique specifications/tolerences which must be met; complete name is, guided missile, air launched, decoy; adm-160b; un1863

**Hazardous Material Classification Code:**

3 department of defense hazard class division and j storage compatibility group

**Supplementary Features:**

Un1863; shipping name: fuel, aviation, turbine engine

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T357-a
