Overall Length:

25.380 inches

Overall Width:

Between 11.940 inches and 12.060 inches

Mounting Method:

Fasteners

End Application:

Air purification unit, insulator

Furnished Items And Quantity:

Bag 1; housing cord 1; flap 1; bag zipper 1; cord 1; slider 1; slide pull 2; thong 2; insulator 1; washer 8; button 3; socket 3; stud 3; eyelet 3; doubler 1

Material:

Glass cloth and plastic, vinyl chloride-acrylonitrile copolymer and silicone rubber

Material:

Glass and plastic, vinyl chloride-acrylonitrile copolymer and rubber silicone class q

Fsc Application Data:

Guided missile components

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T23700
