General Description:

operating cycles 1000 cycles during a 5 operational year life, 175 maximum voltage drop for both main and auxiliary contacts

Fsc Application Data:

Guided missile components

Reference Number Differentiating Characteristics:

As differentiated by boeing drawing number 27a10453-106-11 fscm 81205

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
