Model Number:

Ba-586/d

Hazardous Material Classification Code:

N/a coast guard class and 1.4 department of defense hazard class division and w department of transportation class and n/a firefighting group and (00) inhabited building distance and s storage compatibility group

General Description:

Electrical power supply, battery is a 28/100 vdc silver-zinc/potassium hydroxide, containing a single squib and gas cartridge, when electrically ignited forces electrolyte into battery cells, when in storage battery is designed to contain hazardous effects from accidental functioning, reservoir provided for any electrolyte overflow, 19.11 in. Lg, 14.20 in dia., wt. Approx 18.20 lbs

Departure From Cited Document:

Pkg iaw mil-b-117, type 1, class e, heavy duty, grease proof, water proof, water vapor proof bag

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

A23900
