End Application:

Bgm-109g

General Description:

Pulsed tone acoustic emission frequency 9k hz porm 500 hz; pulse width 44 porm 3 ms; pulse period 400 porm 100 ms; beam pattern hemispherical off potted face; acoustical output 1000 dynes per square centimeter at one meter typical; operating life 190 hours typical; battery voltage 14 volts; operating pressure 0 to 1500 psi; weight 300 grams

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
