End Application:

Peacekeeper missile lgm-118a

Criticality Code Justification:

Spcl

Functional Description:

External electronics for inertial measurement unit

Nuclear Hardness Critical Feature:

Hardened

Special Test Features:

Electrostatic sensitive

General Description:

Hcontains circuit card assembly 8; printed cable assembly 2; thermistor 1; emi filter 1; connecting plate 1; housing 1; flexible tube assembly 3; flexible harness 4; pressure transducer 1; temperature transducer 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
