**End Application:**

Peacekeeper missile Igm-118a

**Criticality Code Justification:**

Spcl

**Functional Description:**

External electronics for inertial measurement unit

**Nuclear Hardness Critical Feature:**

Hardened

**Special Test Features:**

Electrostatic sensitive

**General Description:**

Hcontains circuit card assembly 8; printed cable assembly 2; thermistor 1; emi filter 1; connecting plate 1; housing 1; flexible tube assembly 3; flexible harness 4; pressure transducer 1; temperature transducer 1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
