End Application:
Peacekeeper missile Igm-118a
Criticality Code Justification:
Spcl
Functional Description:
External electronics for inertial measurement unit
Nuclear Hardness Critical Feature:
Hardened
Special Test Features:
Electrostatic sensitive
General Description:
Hoontains circuit card assembly 8; printed cable assembly 2; thermistor 1; emi filter 1; connecting plate 1; housing 1; flexible tube
assembly 3; flexible harness 4; pressure transducer 1; temperature transducer 1
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
