**End Application:**

Agm-65a maverick

**Special Features:**

Material is 0.040 in. Thick aluminum alloy sheet; 3 holes; length: 6.875 in. ; next assembly p/n 3829562; functional description: used for torquer amplifier

**Material:**

Aluminum alloy 6061

**Material Specification:**

Qq-a-250/11, t4 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A531g0
