End Application:
Agm-65a maverick
Special Features:
Material is 0.040 in. Thick aluminum alloy sheet; 3 holes; length: 6.875 in.; next assembly p/n 3829562; functional description: used for
torquer amplifier
Material:
Aluminum alloy 6061
Material Specification:
Qq-a-250/11, t4 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Fiig:
A531a0
