End Application:

Agm-65a maverick

Special Features:

Material is 0.040 in. Thick aluminum alloy sheet; 3 holes; length: 6.875 in. ; next assembly p/n 3829562; functional description: used for torquer amplifier

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11, t4 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531g0
