**End Application:**

Lgm-30f

**Criticality Code Justification:**

Text

**Reference Data And Literature:**

Lgm-30f fig a 6275

**General Description:**

Contains printed wiring board 1; connector 1; integrated circuits 15; transistors 3; diode 8; resistor 32; capacitor 27; and associated hardware; nuclear hardness critical and electrostatic sensitive

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli
