Overall Length:

2.500 inches

Overall Height:

1.170 inches

Overall Width:

2.400 inches

End Application:

1430-01-531-2722, guided missile battery control central, vehicle mounted (amanpads)

Product Name:

Reinforcement assembly, support tube

Special Features:

Specific material is aluminum alloy 6061-t6, specification qq-a-200/8 or astm b221; pat must comply with fmvss requirement 210

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
