**End Application:**

Lgm-30 launch control bldg

**Criticality Code Justification:**

Feat

**Special Features:**

Design analysis

**Nuclear Hardness Critical Feature:**

Hardened

**General Description:**

Material anodized aluminum alloy; length 13.295 in.; thickness 0.872; used in safety ventilation valve 1430001031103

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
