End Application:

Lgm-30 launch control bldg

Criticality Code Justification:

Feat

Special Features:

Design analysis

Nuclear Hardness Critical Feature:

Hardened

General Description:

Material anodized aluminum alloy; length 13.295 in.; thickness 0.872; used in safety ventilation valve 1430001031103

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
