End Application:

Lgm-30 launch facility

Criticality Code Justification:

Feat

Special Features:

Design analysis

Nuclear Hardness Critical Feature:

Hardened

General Description:

Material aluminum alloy 2014-t6; outside diameter 36.170 in.; thickness 8.040 in.; component of safety ventilation valve 1430001902095

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
