End Application:
Lgm-30 launch facility
Criticality Code Justification:
Feat
Special Features:
Design analysis
Nuclear Hardness Critical Feature:
Hardened
General Description:
Material aluminum alloy 2014-t6; outside diameter 36.170 in.; thickness 8.040 in.; component of safety ventilation valve 1430001902095
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
