End Application:

Lgm-30 launch facility

Criticality Code Justification:

Feat`

Special Features:

Design analysis

Nuclear Hardness Critical Feature:

Hardened

General Description:

Aluminum 2024-t6; diameter 18.230 in; depth 1.750; goes pru/13f safety ventilation valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
