Functional Classification:

Aa-7.1

Functional Description:

Used to transfer target azimuth from theodolite to position autocollimator with respect to established azimuth reference

Entry Date:

60-11-15

Reference Data And Literature:

Autonetics dwgs 65727-201; 67612-201

General Description:

Pyrex mirror material; silicon monoxide overcoating; 2.500 in. Dia; 0.750 in. Thk; 9.750 in. height including cover; 7.500 in. diameter of mirror base

Type/model Designation:

Su-9/gjq-13

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
