Overall Length:

7.8 inches

Overall Height:

12.6 inches

Overall Width:

9.0 inches

End Application:

T-1702/ot-228

Product Name:

Circm pointer tracker (pt)

Functional Description:

The laser, directional assembly lru, contains the image processing, motors, motor drivers, camera, cryogenic cooler, electronics hardware, operational applications software, optical components and interfaces to provide the directed countermeasures radiant intensity on target for laser, directional assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
