General Description:

Cable assembly in 3 parts, part one solenoid valve 2.875 in. H 2.686 in. Lg 1.813 w 1/4 in. Diameter 18 thd per in. 2 ea threaded internal plain ends pipe size 1/4-18 npt working pressure 300 psi 115 volts 60 cycle, part two cable type iv size 18 awg 2 conductor or ul type s-18/2 federal specification j-c-580 encapsulated in bushing 0.437 id 0.406 in. Od flange 0.062 in. Thk and 0.953 in. Od with mil-a-46106 sealant continuous between solenoid and cable jacket thickness 0.125 in. Other end extending 36.000 in. To branching point, part three, 2 ea type iv size 18 awg conductor wires branch singly from cable outer cover and terminate at 2 ea terminals type f form va grade a class 1 cat 1 no. 5 white crimp to conductor 5.000 in. Porm 0.125 in. Lg, o/a lg of assembly from c/l of hole in terminal to end of solenoid valve opposite cable connection 43.686 in. Porm 0.125 in., tag no. 1656507-11 1 installed on cable 5.000 in. From branch point, wire colors 1 ea black and 1 ea white where exposed from ou
