Mounting Type:

Pylon

End Application:

Lockheed launcher, guided missile, aircraft

Installation Design:

Removable

Mounting Location:

Both wings

Aircraft Type For Which Designed:

Rotary wing

Missile Launching Method:

Ejected

Side For Which Designed:

Port and starboard

Product Name:

Launcher, guided missile, aircraft

Special Features:

Agm-114 hellfire air-to-surface missile

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A50310
