Overall Height:

10.500 inches

Overall Width:

18.000 inches

End Application:

Agm-86b missile

Special Features:

Used to support operational test launch nontactical instrumentation kitor recovery system package payloads during lift and transport operations

Material:

Aluminum alloy

Reference Data And Literature:

35d3-11-45-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
