**Warning Streamer:**

Not included

**Special Features:**

G21.0 in. Diameter by 15.0 in. High; consists of two major sections which assemble on support ring of imu sphere p/n 106010; used to direct a flow of gaseous nitrogen around exterior surface of sphere

**Material:**

Polyurethane

**Material:**

Polyurethane

**Supplementary Features:**

E.I. Lgm-118a peacekeeper

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T23700
